

KONICA MINOLTA

A WORLD ON LOAN – CONSUMABLE RECYCLING

Our *world on loan* scheme is designed to help our customers meet and exceed their environmental targets for recycling and to protect the environment. This provides you with a process to return and recycle used consumables. 100% of the returned consumable materials are recycled and recovered into raw materials for other industrial use. You will be provided with documentation to meet your recycling targets.

Further information regarding Konica Minolta's commitment to the environment can be located via the official web site:- www.konicaminolta.co.uk

To discuss a collection and the costs, please contact our recycling partner eReco on Freephone number **0800 121 4026**

This service includes the transport, asset tracking and a report that can be supplied to assist you in monitoring your recycling targets.

A label and a duty of care notice will be sent to you and a courier will collect your items for recycling and an invoice will follow.

To ensure the process is kind to the planet and to minimise transportation, please arrange for a collection when you have enough consumables to fill a bag (which can be obtained FOC by calling the above number).

If you have any questions related to the collection and consumable recycling service please call the phone number above. If you have any feedback or suggestions, please e-mail us at quality@konicaminolta.co.uk

Finally, I would like to express our appreciation for the interest you have shown in this scheme.

Yours faithfully

Quality & Environmental Manager
